THE SATISFACTION FROM 2-YEAR MEDICAL STAFFS TRAINING PROGRAMS SURVEY

Chiu HY, Lin PY, Lee SH, Su HC, Chung HC
Division Of Primary Care Medicine, The Joint Commission Of Taiwan, Taiwan

Introduction
2-year medical staffs training programs have been sponsored for implementation in teaching hospitals by Ministry of Health and Welfare since July 2007. The coverage rate is approximately 76.5%.

Results
A total of 10838 trainees deemed that after undergoing the post-graduation 2-year Medical Staffs Training Programs:
- 85.4% the clinical practice was effectively improved
- 84.6% interactive communication with the group members, patients, or patients’ families were facilitated
- 82.6% the school education was applied in clinical work
- 78.6% reflect that given the chance they would be willing to act as a tutor.

Methodology
The survey subjects include 16,638 trainees. The 5-point Likert scale was adopted for online survey conducted from 1st October 2013 to 31st October 2013. The questionnaire including five perspectives as following:

<table>
<thead>
<tr>
<th></th>
<th>Work satisfaction</th>
<th>Hospital resources</th>
<th>Tutor assistance</th>
<th>Self-growth</th>
<th>Program support</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
