Abstract

This article examines the framework and key content of the Safe Healthcare Environment Advisory Program (SHEAP) from the perspective of a consultant by highlighting the focal points of consultation in four major aspects, namely emergency response planning, drills and training, construction and equipment, and management mechanisms. It also organizes common issues identified in institutions during the consultation process. Finally, the article shares valuable experience provided by international experts and consultants, hoping to encourage more hospitals to stress environmental safety and fire risk management. Through SHEAP, this article provides strategies for hospitals to improve their healthcare services.

Keywords: SHEAP, environmental safety, fire risk management, strategy

初探實地輔導及剖析輔導面向— 以SHEAP委員的角度

摘要

本文以輔導委員的角度從SHEAP環境安全諮詢計畫輔導的架構及內容重點切入，分別介紹「緊急應變計畫」、「演練與訓練」、「建築與設備」及「管理機制」四大面向之輔導重點，並統整輔導過程中發現機構常見的問題。最後與讀者分享從國外專家委員身上學習到的寶貴經驗，期待能鼓勵更多醫院重視環境安全與火災風險管理，並透過本計畫給予醫院更適切的改善策略。

關鍵詞：醫療機構環境安全諮詢計畫、環境安全、火災風險管理、策略
